

David Bartlett
Resolve Consulting
PO Box 606
Gosford NSW 2250

Dear David,

Thank you. We are very appreciative of your time and effort in bringing us your valuable thoughts and proposals for Christian Camping.

Your presentation to the CCI Australia National Council has made a significant difference! The National Council Members and Staff have been forced to seriously consider their role and purpose in leading CCI Australia.

This consideration, that commenced while we listened to your talk, followed with a lengthy discussion on the Thursday afternoon and continued with developments since, has resulted in the following actions:-

- The engaging of Resolve Consulting to conduct a survey of CCI Australia's Membership,
- The bringing forward, by a month, of the next National Council meeting (and extending it by a day) to allow for sufficient time to further consider the issues, including the planned facilitated reappraisal of the CCI Australia Mission Statement, and development of a Vision Statement on which to base future directions, and
- The intention by all National Council Members and Staff to have a focussed purpose to the activities and services of CCI Australia.

There has been a renewed enthusiasm expressed by the members of National Council as a result of the Visioning Day that will have long-term benefits for Christian Camping in Australia. This would not have occurred without your assistance, I will provide you with news on developments and look forward to any further advice you may have.

Thank you.

Ken Pullen
CEO 7th March 2005.
