Dear Paul

On behalf of Trinity Christian School Council, I would like to express our sincere appreciation for your participation in this year's Council retreat.

Council considers the retreat to have been an overwhelming success. The material you presented was extremely insightful and particularly pertinent to Trinity Christian School.

It is apparent that you have a tremendous understanding of both the financial and non-financial principles that underpin the success of non-government schools, particularly Christian schools. Being relatively inexperienced in school governance, I was also particularly appreciative of the background material you provided and the clear and concise manner in which concepts were presented.

The long term viability of Trinity Christian School is a primary concern of Council. The retreat greatly enhanced Council's ability to address this aim, and it is likely that many of your suggestions will be utilised.

As per your previous involvement with Trinity Christian School, you have again been a great blessing to the School. We hope that many other non-government schools will make use of your professional services.

Yours faithfully

Mark Davis  
Council member
